WORK EXPERIENCE

Disney College Program | *Incoming Sunset Blvd. Attractions*

Sept. 2025 - Jan. 2026

Immersive work experience for college students & recent grads at WDW.

- Delivering magical guest experiences across multiple high-traffic areas, emphasizing the 4 keys of Disney.
- Adapting to a dynamic, fast-paced environment by mastering all the necessary protocols while also working collaboratively with my team to ensure smooth attraction performance.

Limbitless Solutions Inc. | *Frontend Development & Web Design Intern*

Jan. 2024 - Aug. 2024

A non-profit organization empowering individuals through personalized, creative bionics.

- Developed the Latest at Limbitless page that combines the News, Blogs, and Press pages to allow for seamless article searching. Achieved this with **HTML**, **CSS**, **JavaScript**, & **Bootstrap** as the front-end technologies.
- Took charge of overseeing the updates for several of our outdated pages, most importantly the ENGAGE page to ensure that the users always have up-to-date information.
- Designed & researched the best **UI/UX** practices for the Latest at Limbitless page, Tasks page, and Works page to ensure the most optimal designs for our users. Utilized **Figma** for wireframing & prototyping.
- Worked independently & collaboratively with the Web & Design team as a designer/developer to ensure top-grade web pages prioritizing usability, responsiveness, and accessibility standards.

Arboretum, UCF | *Web Development Intern*

Aug. 2023 - Dec. 2023

Provides opportunities to explore & learn about campus plant life and natural wonders.

- Managed updates & maintenance for the Arboretum website through **WordPress** ensuring content accuracy, functionality, and adherence to brand guidelines. Applied my knowledge of **HTML** & **CSS** syntax to assist with WordPress.
- Collaborated with UCF Facilities dept. through numerous team meetings to manage the merging of the Facilities & Arboretum website.
- Supported the media/marketing team with event content creation & social media management. Also contributed to events by volunteering my photography skills to enhance audience engagement & outreach.

CURRENT PROJECT

more projects in portfolio

SoundBites

- Constructed a recommendation website that retrieves a user's top 3 Spotify genres & provides them with personalized restaurant recommendations.
- Utilized **React.js** for the frontend technology, **Google Maps API** & **Places API** for restaurant querying, **Spotify API** to retrieve the genre info, **Node.js** with the **Express.js** framework to handle the backend, & **MongoDB** for the database.
